

This is our fifth annual gladiolus catalog. We are listing many new and exciting gladiolus award winners and some of the most outstanding older varieties. In size range you will find them with florets 7 inches across to miniatures of only 1 inch in diameter.

We have all waited patiently for the introduction of the All American Award Winners. They are being released for the first time this year, and we feel fortunate in being able to list them along with some outstanding new introductions from Bruce Collins, one of America's foremost catalogers. We give extra's with each order and are especially generous on large orders. All orders are postpaid, but if you will include postage with your order, we will return it double in extra's.

ALL AMERICAN AWARD WINNERS (See color print)

AFFLEBLOSSOM (AAGS) Baerman-Fischer 65 days Class 460

Appleblossom is snowy white with a cream throat and a corona or edging of rose pink on each petal. It grows up to five feet tall with individual florets 5 inches across. It is a easy grower and performs well under average growing conditions.

ROYAL STEWART (AAGS) Pommert 75 days Class 450

This lightly ruffled red grows well under nearly all conditions, and has won top awards at several shows. It is vigorous and healthy, and will hold 12 florets open at once. The florets are 5 inches in diameter and are carried on a long flowerhead.
